

RBC's Kinome-Services

HotSpotSM Kinase Assays: “Gold Standard” radiometric filter binding based assay

Kinase HotSpotSM :

- Proprietary methods enable
 - *Nanoliter scale assays*
 - *Operational efficiencies*
 - *Cost reduction*
 - *Environmental friendly*
- HTS & Profiling;
- Single dose or curves;
- ATP competitive evaluation;
- Substrate competitive evaluation;
- Binding reversibility test;
- K_i determination;
- Custom assay development;
- Substrate determination;
- Research collaboration.
